

12 MARCH 1982

MEMO FOR RECORD

SUBJECT: NEW BUILDING FITNESS CENTER

1. I covered a meeting on this date to discuss the need to plan for a fitness center in the new building. In attendance:

STAT

	D/COMPT	4E20
	D/LOG/BLDG	4E50
	D/LOG/BLDG	4E50
	OMS	1D454
	OMS	
	SSA/DDA	7D18
	OGC	7D00
	OP	

2. I reviewed our earlier experience and action approved by Adm Turner. Everyone seemed to understand that government funds can be used for fitness activities required for the job but not for recreation. Larry Myers reported on plans for the new building. It was agreed that we should obtain approval for plans for the new center.

3. It became evident during the meeting

that the new OMS management has a
great interest in fitness activities.
We agreed between OMS and OI representatives
that we would work toward moving
responsibility for the fitness center to
OMS where it could be justified more
easily and included as part of a total
health maintenance program.
